

Advocacy

Possible Actions to Advocate for Your Accessible Library Program:

- Keep parents, administrators, and others in the community up to date as to what you are doing for students with disabilities in the library.
- Display projects that students have completed in the library, using library resources.
- Demonstrate the use of assistive technology.
- Have an open house for community members to come and see what the library is doing to include all students in learning.
- Send out monthly brochures about what's new in the library.
- Enlist the help of community members in gaining support for students with disabilities and obtaining the resources they need.
